It’s Fall again...please remember
In accordance with St. Helena Municipal Code
(Sections 6.04.070, 8.20.010, 12.08.020),

It is unlawful to sweep, scatter, or deposit any dirt, trash, leaves, paper, garbage, refuse, or excrement onto a City street.

The City street sweeping machine has a difficult time picking up the leaves that are blown into the street from private properties; It takes extra time to clean and you can be charged for the City’s costs in cleaning up your violation.

The municipal storm drain system flows directly into our creeks and to the Napa River untreated. In an effort to keep our creeks clean and improve water quality,

Help us keep our City streets clean….Thank you.
